

NAME OF PRODUCT Mitomycin C

# SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product/Catalog	Number(s	):
I I CANCE CALLIN	j	<i>,</i> .

60-100.7	40 μg/ml, 150 μl/vial
60-100A100D	1 mg/ml, 100 μl/vial; DMSO
60-100A100W	1 mg/ml, 100 μl/vial; Water
60-100A200	1 mg/ml, 200 μl/vial
60-123	5.0 μg/mL, 1 ml/vial
60-172	500 μg/ml, 1 ml/vial
60-183	0.02 mg/ml (1.0 μg/50 μl); 1.8 ml/vial
Product name:	Mitomycin C
Synonyms:	MMC; Ametycin; Mitoplus; Ametycine; Mytomycin; 7-Amino-9-alpha- methoxymitosane
Manufacturer:	Molecular Toxicology Inc.
Address:	157 Industrial Park Drive, Boone, North Carolina, 28607
Phone:	(1) 828 264 9099 (8:30 – 17:00 EST)
Fax:	828 264 0103
Emergency contact	Contact 1800-424-9300 (USA) or 703 527 3887 (International) at other times
(Chemtrec):	Email: <u>chemtrec@chemtrec.com;</u>
Recommended use:	Laboratory, For Research Only
Restrictions on use:	Not for clinical use

# **SECTION 2. HAZARDS IDENTIFICATION**

Classification of the substance or mixture per GSH and EU Directive 1272/2008

Physical hazards Health hazards

**Environmental hazards** 

None known Acute Toxicity, Oral (Category 2) Carcinogenicity (Category 2) See eco-toxicity section 12.

R:\SDS\ControlChems\word docs\Mitomycin C GHS - liquid -V3.docx PAGE 1 OF 9 Version date 09/10/18

Labelling

Hazard Statements	H300 Fatal if swallowed H351 Suspected of causing cancer
Precautionary Statements	<ul> <li>P201 Receive special instructions before use</li> <li>P202 Do not handle until all safety precautions are understood</li> <li>P264 Wash hands thoroughly after handling</li> <li>P270 Do not eat, drink or smoke when using this product</li> <li>P281 Use protective equipment as required</li> <li>P301+310 IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician</li> </ul>
	<ul> <li>P330 Rinse mouth</li> <li>P308 + 313 IF exposed or concerned: get medical advice/attention</li> <li>P321 - Specific treatment (see supplemental instructions on the administration of antidotes in First Aid Measures section).</li> <li>P405 Store locked up</li> <li>P501 Dispose of contents/container in accordance with local/regional/national/international regulations</li> </ul>
Hazards not otherwise classified or not covered by GHS	None

# SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance

Component	Purpose	CAS-No	EC-No.	Weight %
C <sub>15</sub> H <sub>18</sub> N <sub>4</sub> O <sub>5</sub> Mitomycin C	Positive control for Ames test, <i>uvr</i> phenotype testing	50-07-7	200-008-6	Varies by product

# SECTION 4. FIRST AID MEASURES

# Description of first aid measures

Eye Contact	Rinse eyes and under eyelids immediately with doctor.	plenty of water. Consult a
Skin Contact	Wash off immediately with plenty of soap and w Seek immediate medical advice.	vater and rinse thoroughly.
Ingestion	Rinse mouth with plenty of water. Never give an unconscious person. Seek immediate medical	nything by mouth to an attention.
Inhalation	Move to fresh air. If required, provide artificial rewarm. Get medical attention for any breathing	espiration. Keep patient difficulties.
Protection of first-aiders	Not required	
R:\SDS\ControlChems\wo docs\Mitomycin C GHS - V3.docx	ord Version date 09/10/18 liquid -	Molecular Toxicology 828-264-9099
PAGE 2 OF 9		

In the event that symptoms develop or persists, obtain medical attention.

#### Most important symptoms and effects, both acute and delayed

Acute: Ingestion - Exposure may cause: Nausea, vomiting, diarrhea, alopecia.

Chronic: Inhalation may cause: pulmonary fibrosis and permanent damage

Indication of any immediate medical attention and special treatment needed

Seek medical attention if ingested or if breathing difficulties are observed.

### Antidote

DMSO: extravasation exposure (topical)

# SECTION 5. FIREFIGHTING MEASURES

#### Extinguishing media

Not flammable; use media suitable for extinguishing surrounding fire (carbon dioxide, extinguishing powder or water spray). Fight larger fires with water spray or alcohol resistant foam. A solid water stream may not be suitable.

#### Special hazards arising from the substance or mixture

Hazardous thermal decomposition products: Carbon monoxide, nitrogen oxides, sulfur dioxide, sodium oxides, hydrogen chloride gas

#### Advice for firefighters

Fire-fighters should wear fully protective impervious protective equipment and self-contained breathing apparatus (SCBA).

# SECTION 6. ACCIDENTAL RELEASE MEASURES

## Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Evacuate surrounding areas. Use personal protective equipment. Avoid dust formation. Avoid breathing vapors, mist or gas.

#### **Environmental precautions**

Do not release material into drains.

## Methods and material for containment and cleaning up

Dispose contaminated material as waste according to section 13. Pick up and arrange disposal without creating dust. Keep in suitable, closed containers for disposal. Mitomycin is an RCRA listed hazardous waste: EPA Code U010. Reportable Quantity: 10 lbs.

## **Reference to other sections**

Refer to Sections 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

# SECTION 7. HANDLING AND STORAGE

# Precautions for safe handling

Avoid contact with skin and eyes. Avoid formation of dust and aerosols.

R:\SDS\ControlChems\word docs\Mitomycin C GHS - liquid -V3.docx PAGE 3 OF 9 Version date 09/10/18

Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire protection.

# Conditions for safe storage, including any incompatibilities

Store according to product packaging, tightly sealed. Keep in a dry, well-ventilated place. Recommended storage temperature 2-8°C.

# SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

## **Control parameters**

# Exposure limits

Contains no substances with occupational exposure limit values.

Monitoring methods N/A

# **Exposure controls**

# Engineering Measures

# Ensure adequate ventilation, especially in confined areas

Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimize release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source. Use of a properly operating chemical fume hood designed for hazardous chemicals is recommended.

# Personal protective equipment

*Eye Protection*: Safety glasses with side-shields conforming to EN166 Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

## Hand Protection

Chemical resistant gloves; nitrile rubber recommended. Inspect gloves before use.

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves (refer to manufacturer/supplier for information). If material is solubilized, account for solvent in glove assessment.

Remove gloves with care avoiding skin contamination.

## Skin and body protection

Impervious clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

## **Respiratory Protection**

Exposure risk assessment must be performed by a qualified Industrial Hygienist. Where risk assessment shows air purifying respirators are appropriate use a dust mask type N95 (US) or type P1 (EN 143) respirator. NIOSH approved Respiratory Protection is required by EPA. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).For nuisance exposures use type P95 (US) or type P1 (EU EN 143) particle respirator.For higher level protection use type OV/AG/P99 (US) or type ABEK-P2 (EU EN 143) respirator cartridges. Use respirators and components tested and appropriate government standards such as NIOSH (EU).

*Hygiene Measures* - Handle in accordance with good industrial hygiene and safety practice. Wash hands, forearms and face thoroughly after handling chemical products, before smoking, eating and using lavatory, and at

R:\SDS\ControlChems\word Version date 09/10/18 docs\Mitomycin C GHS - liquid -V3.docx

the end of the work period. Employ techniques to avoid contamination of clothing. Keep away from food, beverages, and feed.

Environmental exposure controls - Properly operating chemical fume hood designed for hazardous chemicals.

# **Exposure limits**

Permissible Exposure Limits and Threshold Limit Values not specified by OSHA.

# SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

Appearance	Liquid, light – med violet
Auto-ignition temperature	No data available
Boiling point	No data available
Decomposition temperature	No data available
Evaporation Rate	No data available
Flammable limits in air	No data available
Flash point	No data available
Formula	Not applicable
Melting point	Not applicable
Molecular weight	Not applicable
Odor threshold	No data available
Osmolality	No data available
Partition coefficient	No data available
рН	No data available
Solubility in water	Soluble
Specific gravity	No data available
Vapor density	No data available
Vapor pressure	No data available
Viscosity	No data available

Other information

# SECTION 10. STABILITY AND REACTIVITY

## Reactivity

#### Not reactive.

## **Chemical stability**

Stable under normal conditions. Decomposition will not occur if used and stored appropriately.

# Possibility of hazardous reactions

No hazardous reactions known.

## **Conditions to avoid**

No specific data.

R:\SDS\ControlChems\word docs\Mitomycin C GHS - liquid -V3.docx PAGE 5 OF 9 Version date 09/10/18

# Incompatible materials

Strong acids, strong bases, strong oxidizers

# Hazardous decomposition products

Carbon monoxide, carbon dioxide, nitrogen oxides

# SECTION 11. TOXICOLOGICAL INFORMATION

# Information on toxicological effects

### Acute toxicity

For active ingredient Mitomycin C: RTCES #CN0700000

LD <sub>50</sub> oral, rat:	30 mg/kg
LD <sub>50</sub> oral, mouse:	23 mg/kg
LD <sub>50</sub> subcutaneous, rat:	3250 µg/kg
LD <sub>50</sub> intraperitoneal, mouse:	4 mg/kg
LD <sub>50</sub> intraperitoneal, rat:	1 mg/kg
LD <sub>50</sub> subcutaneous, mouse:	7300 µg/kg
LD <sub>50</sub> intravenous, rat:	3 mg/kg
LD <sub>50</sub> intravenous, dog:	720 µg/kg

## Other information on acute toxicity

Microsomal mutagenicity toxicity: 5 mcg/plate Cytogenic analysis system test (human, fibroblast): 100 mcg/L

## Skin corrosion/irritation

No data available

# Serious eye damage/eye irritation

No data available

# Respiratory or skin sensitization

No data available

# Germ cell mutagenicity

No data available

## Carcinogenicity

California prop. 65 carcinogen

- IARC: Group 2B: Possible human carcinogen (Mitomycin C)
- ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.
- NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.
- OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

## Reproductive toxicity

No data available

R:\SDS\ControlChems\word Version date docs\Mitomycin C GHS - liquid -V3.docx PAGE 6 OF 9

Version date 09/10/18

# Teratogenicity

No data available

Specific target organ toxicity - single exposure (Globally Harmonized System) No data available

Specific target organ toxicity - repeated exposure (Globally Harmonized System) No data available

Aspiration hazard No data available

# Potential health effects

Inhalation Harmful if inhaled.
Ingestion Harmful if swallowed.
Skin May be fatal if absorbed through skin. Causes skin irritation.
Eyes Causes eye irritation.
Synergistic effects
No data available

Additional toxicological information: RTECS: CN0700000

# **SECTION 12. ECOLOGICAL INFORMATION**

Toxicity

Aquatic ecotoxicity: No further relevant information available. Persistance and degradability: No further relevant information available. Behavior in environment systems: No further relevant information available. Bioaccumulative potential: No further relevant information available. Mobility in soil: No further relevant information available. Additional ecological information: General notes: De pet ellew undiluted product or large quantities of it to reach ground water water and

Do not allow undiluted product or large quantities of it to reach ground water, water course, or sewage system. Do not allow material to be released to the environment without proper governmental permits.

## **Results of PBT and vPVB Assessment**

**PBT:** Not applicable **vPvB:** Not applicable

Other adverse effects: No further relevant information available.

# **SECTION 13. DISPOSAL CONSIDERATIONS**

#### Product

Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material.

## **Contaminated packaging**

Dispose of as unused product.

R:\SDS\ControlChems\word docs\Mitomycin C GHS - liquid -V3.docx PAGE 7 OF 9 Version date 09/10/18

# **SECTION 14. TRANSPORT INFORMATION**

# **DOT regulations:**

UN Number: UN 3462 Class: 6.1 - POISON Packing Group: II Proper shipping name: Toxins, extracted from living sources, solid, n.o.s. (Mitomycin C) Marine pollutant: No

# Land transport ADR/RID (cross-border)

UN Number: UN 3462 Class: 6.1 - POISON Packing Group: II Proper shipping name: Toxins, extracted from living sources, solid, n.o.s. (Mitomycin C) Marine pollutant: No

## Maritime transport IMDG:

UN Number: UN 3462 Class: 6.1 - POISON Packing Group: II Proper shipping name: Toxins, extracted from living sources, solid, n.o.s. (Mitomycin C) Marine pollutant: No

# Air transport ICAO\_TI and IATA-DGR:

UN Number: UN 3462 Class: 6.1 - POISON Packing Group: II Proper shipping name: Toxins, extracted from living sources, solid, n.o.s. (Mitomycin C) Marine pollutant: No

Special precautions for user: Not applicable

## Transport/Additional information:

When sold in quantities of less than or equal to 1 ml, or 1g, with an Excepted Quantity Code of E1, E2, E4, or E5, this item meets the De Minimis Quantities exemption, per IATA 2.6.10. Therefore packaging does not have to be labeled as Dangerous Goods/Excepted Quantity.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code: Not applicable

# **SECTION 15. REGULATORY INFORMATION**

## SARA 302 Components

SARA 302: Chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302:

50-07-7 Mitomycin C: 500 lbs

R:\SDS\ControlChems\word Vers docs\Mitomycin C GHS - liquid -V3.docx PAGE 8 OF 9

Version date 09/10/18

# SARA 313 Components

SARA 313: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

# SARA 311/312 Hazards

Acute Health Hazard, Chronic Health Hazard

# Massachusetts Right To Know Components

50-07-7 Mitomycin C Codes: 1, 7\*E\*C\*F6 F8

# Pennsylvania Right To Know Components

50-07-7 Mitomycin C Code: ES

# New Jersey Right To Know Components

50-07-7 Mitomycin C Listed as an extremely hazardous substance

# California Prop. 65 Components

WARNING! This product contains a chemical known to the State of California to cause cancer. 50-07-7 Mitomycin C

# **SECTION 16. OTHER INFORMATION**

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product. Molecular Toxicology, Inc. shall not be held liable for any damage resulting from handling or from contact with the above product. See <u>www.moltox.com</u> and/or the invoice or packing slip for additional terms and conditions of sale.
